

The community is welcome to attend a fantastic program at Ruth K. Broad Bay Harbor K-8 Center on September 7 at 7pm called “Rachel’s Challenge” (rachelschallenge.org). It is a national program based on the powerful journal writings of a victim of the Columbine shootings that is intended to inspire, equip and empower students and families to make positive changes in their schools and communities. Teaching tolerance, understanding, teamwork, leadership and kindness is a tough task, but this seems to have some real positive effects. It is a multi-part workshop that culminates in a nighttime session for adults, parents and community members. You are invited (adults only) to this nighttime session that should prove to be a moving and inspiring program.
